

UV Laser Cutting Machine JG18

Product Attributes:

Product name	UV Laser Cutting Machine
Brand Name:	ASIDA
Model Number:	JG18
Certification:	CE
Place of Origin:	China
Packaging Details:	Wooden Carton

UV Laser Cutting Machine Usage:

The machine is used to cutting, opening the window and uncover for CVL/FPC/RF and thin multi layer board, as well as cutting a variety of substrate, such as ceramic, silicon etc.

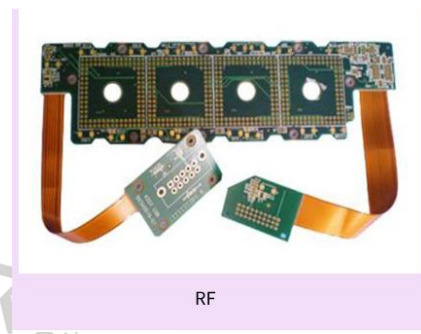

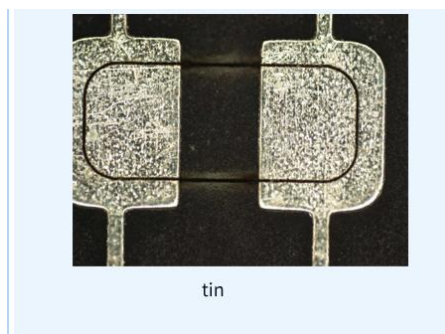

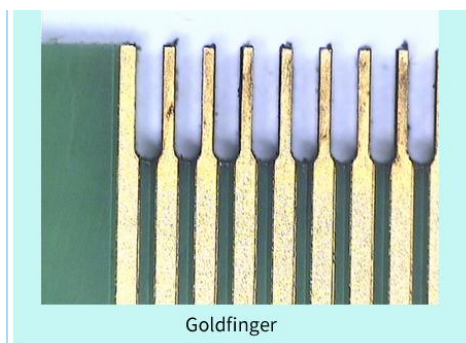

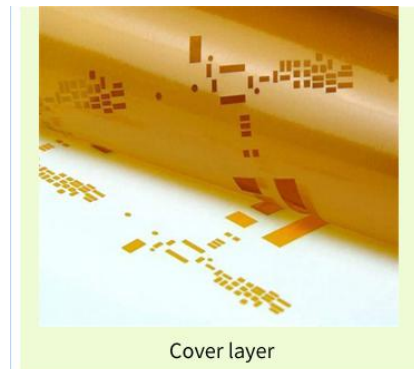

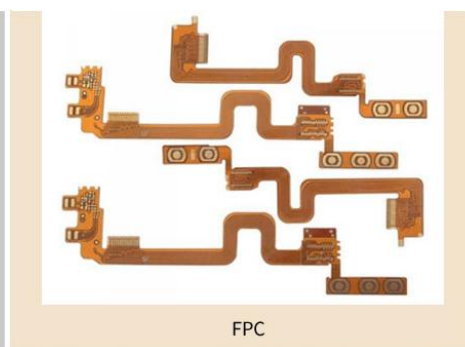

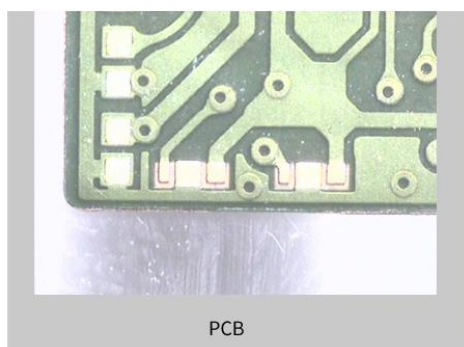

UV Laser Cutting Machine Features:

1. Precision : Adopting linear motor module , Servo control, sizing compensation, optical positioning and secondary positioning technologies.
2. High quality: Little carbonization and high density graphics cutting.

Contact: Anna Mobile: +86-15017199907 Email: jd02@zhengyee.com Skype: Anna-Peng0628@outlook.com

3.Highly intelligent,efficient: With multi-panels cutting,auto-positioning,auto-correcting,automatic sizing compensation and exclusive cutting previews functions.

Cutting Examples:

UV Laser Cutting Machine Specifications:

Specification of UV Laser Cutting Machine	
Model	JG18
Wavelength	355nm
Laser Power	Option (Standard 10W)
Laser Frequency	30-120kHz
Maximum Processing Size	720mm x 540mm
Maximum Operating Speed	800mm/s
Positioning Accuracy of Table	±3μm
Repetitive Positioning Accuracy of Table	±1μm
Total Accuracy	±20um

light spots	20±5μm
Scanning range	45mmx45mm
File Format	*.gbr & *.dxf & *.lay
Electric Power Supply	AC220V/2kW; AC380V/5.5kW
Dimensions(L x W x H)	1780mmx1610mmx1650mm
Weight	2300kg
Environmental Temperature	20±2℃
Environmental Humidity	≤60%RH, Non-condensing
Ground Amplitude	≤5μm
Ground Pressure	≥1000Kgf/m ²
