

Fluid Testing Machine LD11

Product name:	Fluid Testing Machine
Brand Name:	ASIDA
Model Number:	LD11
Place of Origin:	China
Packaging Details:	Wooden Carton

USAGE

Special appliance that used for testing prepreg resin fluidity in PCB industry.

FEATURES

- 1.The software is initiaively developed, so we can customize its function.
- 2.Optimize optical path to ensure best imaging effects.
- 3.The software is easy to use. It's easy to achieve accurate measurement and analysis about point-to-point,line-to-line, arc, radius, diameter, angle and other related dimensions.

SPECIFICATIONS

ITEM	SPECIFICATION
model	LD11
timing range	The time range is from 0.1 second to 999.9 second
Temperature adjustable range	0~200℃
Temperature control accuracy	±2.0℃
power requirement	AC220V 50Hz
span	150mm
hot plate dimension	210×210×30mm
rated power	2400W
appearance dimension	780×400×1000mm (L×W×H)
weight	about 380kg
