

## Peel Strength Tester BL12

Product name:	Peel Strength Tester
Brand Name:	ASIDA
Model Number:	BL32
Place of Origin:	China
Packaging Details:	Wooden Carton

### USAGE

This machine is used in measuring adhesion strength between tinsel and baseplate of copper clad laminate or printed circuitboard.

### FEATURES

1. Patented design, attractive appearance.
2. It is equipped with ASIDA high-quality force gauge, which makes accuracy.
3. You can freely switch the units including N, kg, lb.
4. You can freely change the testing jig. This machine is equipped with a flexible jig and a rigid jig.

5.Maximum,minimum,average of force can be measured.

6.It is equipped with appropriative software and can print the graph of force.

7.Standards-compliant Conform to 7.1 of IEC-326-2 Printed Circuit Board Testing

Method;Conform to GB/T4677-2002 7.1.1;GB/T13557-92;IPC-TM-650 2.4.9 standards.

**Peel Strength Tester BL12 Parameters:**

ITEM	SPECIFICATION
Model	BL32
MAX peel stroke	58mm
MAX pull force	5kgf ( or 49N or 11lbf )
Measurement accuracy	±0.1N ( Base on 49N )
Measurement speed	50.8±2.5mm/min
