

## Automatic Stiffener Adhesive Machine BQ5000C

Product name	Automatic Stiffener Adhesive Machine BQ5000C
Brand Name:	ASIDA
Model Number:	BQ5000C
Place of Origin:	China
Packaging Details:	Wooden Carton

### Automatic Stiffener Adhesive Machine USE:

The machine is used for stiffening adhesive for FPC with stiffener materials.

### Automatic Stiffener Adhesive Machine Features:

#### 1. Precise

Adopting high-precision linear motor and high-resolution grating, closed loop control, optical scanning to locate.

#### 2. High quality

(1) Adopting image pre-judgment technology to ensure quality of stiffener materials, and

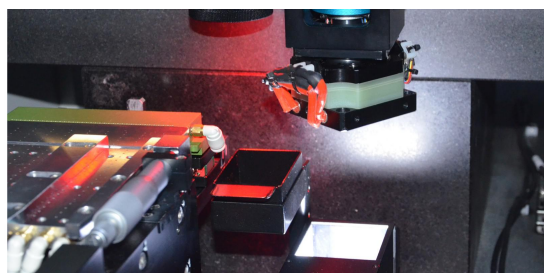

using special suction head to ensure quality of stiffener adhesive.

(2)Feeding by stripping materials micro film with small burr.

3. Efficient: Process optimization in operating, dynamic optimization of mechanical and electrical systems.

4. Save materials: Feeding with high-quality molding stiffener adhesive materials.

## Examples

## SPECIFICATIONS

Product name	Automatic Stiffener Adhesive Machine
Model	BQ5000C
Adhesive Accuracy	±50μm (CPK>1)
Adhesive Efficiency	<1.1Per Piece (24PCS)
Stiffener Materials	Materials: Steel
	Size: 2.5mm×3.5mm~30mm×25mm
	Thickness: 0.1mm~0.5mm
Feeding Mode	Rolling
Worktable Size	280mm×420mm (Option)
Dimensions (L×W×H)	1350mm x 1450mm x 1850mm
Weight	About 1500kg
